REMAIN AT PEKING.

Beleaguered Ministers Think It Dangerous to Leave.

CIPHER CABLE FROM CONGER

Reports Seven American Marines Killed and a Number Wounded.

LARGE RELIEF FORCE IS NEEDED.

Safe Conduct Is Required Not Only For the Ministers But For All Foreign Citizens and Native Christians—Similar Notes Sent by Other Ministers to Their Governments.

Washington, Aug. 10.—The state department has received a cipher dispatch from Minister Conger at Peking, transmitted through the Chinese minister at Washington. It is substantially the same as M. Pichon, the French minister, sent to his government indicating that the eight beleaguered ministers at Peking had sent an identical note to their respective governments. It however, gives the additional information that of the American force of marines at Peking seven had been killed and 16 wounded. Myers and Lippitt, two of the wounded were reported as doing well.

The dispatch tells of the urgent efforts of the Chinese government to have the ministers set a date for leaving Peking and of their refusal to comply without instructions from their own governments. It also urged that the relief force should be large enough to escort not only the ministers but the large number of foreigners, women and children and the many native Christians. Some of the expressions were the same as those used by M. Pichon, and what difference there is in the two messages is probably due to translation.

The message came to the Chinese legation at 12:15 a. m. The building was closed at the time, but the minister was aroused and came down to read the portion of it that was in Chinese. Most of it, however, was in the American cipher code, and its presentation to the state department was deferred until the department opened. The Chinese minister called at the department at 9:15 and handed the message to Acting Secretary Adey, who immediately set about its translation. It was then communicated to the president and to Secretary Root, and subsequently made public. Aside from the contents of the message, it gave assurance that cipher messages were passing freely and that the Chinese government is carrying out this part of its agreement.

The action of the entire diplomatic corps at Peking, in agreeing not to leave their posts without instructions from their governments appears to settle that they will stay in Peking until rescued unless forced out by the Chinese. It is hardly probable they will be ordered to leave in the face of their judgment that it would be certain death to do so.

No important dispatches concerning military movements came during the day, although it is expected that details of the capture of Yang Tsun and the casualty list would soon be in hand.

No action will be taken on the Conger message until President McKinley has been heard from. It is said at the state department that under present conditions, Minister Conger and the other Americans in Peking will not be advised to leave the Chinese capital with a Chinese escort since all of the ministers seem to agree that such a departure would be very dangerous. Secretary Root had a conference with the president over the phone and afterward conferred with Acting Secretary of State Adey. A draft of a message in reply to the cable received from Minister Conger was approved by the president. It is not likely this message will be made public.

No word has yet come from Minister Conger indicating that he has received the dispatches sent from the state department.

AMERICAN FORCES

Lack Signal Corps and Surgeons. Sickness in Ninth Regiment.

New York, Aug. 10.—A dispatch from Tien Tsin dated August 2, via Chufu, August 9, says: "Major Biddle and two companies of American marines and Captain Reilly's battery have arrived. The Sixth cavalry dis-

embarked at Taku. A gale at Taku delayed the landing of the American artillery and cavalry.

"Two battalions of the Ninth and one of the Fourteenth infantry and the American marines have orders to join in the advance. Twenty-nine men of the Ninth infantry are on the sick list. The American forces lack a signal corps and surgeons.

"The Boxers are in strong force 10 miles to the south of Tien Tsin. They are murdering, pillaging and committing atrocities.

"It is reported that Prince Tuan has left Peking and joined General Sung in his position 20 miles northward, the dowager empress having issued an imperative command for the reoccupation of Tien Tsin and Taku. This step shows a determination to stop the advance, but it may be Prince Tuan's scheme to escape.

"A native colonel who fought against the Boxers and protected Christians 60 miles south of here has been dismissed by imperial order. It is reported that friendly Chinese are furnishing the Peking residents food and ammunition and that a new party of progressionists is developing in Peking. Refugees are returning in a starving condition."

ANOTHER EDICT

Li Hung Chang Authorized to Negotiate For Peace.

London, Aug. 10.—It is reported that an edict emanating from Peking and authorizing Li Hung Chang to negotiate with the powers for peace, has been received at Shanghai. The reports at Yokohama again send the statement that a Russian-Japanese force is moving on Peking from the north. The movement and number of this force are kept secret in order to prevent the fact reaching Peking.

The French consul at Shanghai says 3,000 Onnamite troops will arrive there next week for the protection of the French settlement.

The Chinese merchants of Shanghai have petitioned the foreign consuls to prevent the landing of troops, declaring that it will create a panic among the Chinese.

Li Ping Heng, former governor of Shan Tung, personally commanded 15,000 Chinese at Yang Tsun.

A Chinese official at Shanghai says 17 pirates and brigands were beheaded at Canton August 6.

Dispatches from Berlin say that Emperor Francisco Joseph and King Victor Emmanuel III. have telegraphed Field Marshal Count Von Waldersee congratulating him on his appointment to the chief command of the allied troops in China. Field Marshal Von Waldersee will sail August 21 or 22 from an Italian port and will go to Shanghai first, thus disposing of the report that he is going to China by way of San Francisco. About 5,000 more German troops will go to China.

HONG KONG MERCHANTS

Continue Furnishing Munitions to Chinese and Filipinos.

New York, Aug. 10.—A London dispatch says all efforts on the parts of the British and foreign governments to stop the supply of war material to the Chinese will prove of no avail as long as the Chamber of Commerce and legislative council of Hongkong resist the decree prohibiting the export of war material to China.

An immense trade is done at Hongkong in the sale of arms and ammunition to the Chinese and to the Filipino insurgents. The latter, as well as the Chinese draw all their supplies of this kind from Hongkong, where the merchants resist any interference with their business.

The Chamber of Commerce and the legislative council of Hongkong are resolved to fight the government in the matter, declaring that it will constitute a blow at the traditional "freedom of the port of Hongkong" and have engaged Queen's Counsellor Francis, chief of the colonial bar, to champion their cause.

Routed the Enemy.

St. Petersburg, Aug. 10.—The Russian war office has received a dispatch from General Crodekoft dated Khabarevsk, August 9, which says that General Rennenkampf, August 7 overtook and defeated the enemy beyond the Amur river, capturing two guns. The battle was continued as far as Jgest. During the evening of August 7 the Chinese assumed the offensive on both flanks. They were driven back with great loss. Rennenkampf has been reinforced. The railroad north of Tashi Tsao is in the hands of the Chinese who destroyed the station at Hai Cheng August 6 and damaged the line. Hai Cheng was captured after an obstinate fight. Mountain floods interfere with reconstructing the line.

Governor Nash will address National Prison Association opening day of annual convention at Cleveland, O., September 22-26.

NEELY NEED NOT GO.

Writ of Habeas Corpus Was Refused Subject to Appeal.

NOW GOES TO SUPREME COURT.

Court Meets In October and Neely Is Permitted to Stay Until His Case Is Heard and His Fate Decided.

New York, Aug. 10.—John D. Lindsay, counsel for Charles F. Neely, who is accused of the embezzlement of Cuban postal funds and against whom there have been proceedings for extradition to Cuba, said he made application to Judge Wallace of the United States circuit court at Albany, for a writ of habeas corpus for Neely, which Judge Wallace denied.

Judge Wallace did, however, allow an appeal to the United States supreme court and issued an order directing the marshal to keep Neely here pending the appeal.

Mr. Lindsay explained that the supreme court will not meet until next October, when he said the appeal could be argued. "We have simply raised a constitutional question," said Mr. Lindsay.

ANXIOUS INQUIRERS

Want to Hear From Baroness Von Ketteler—She Was a Detroit Girl.

Washington, Aug. 10.—At the instance of friends of Baroness Von Ketteler, the state department recently telegraphed the embassy at Berlin inquiring whether any news of her condition had reached there. The charge d'affaires telegraphs that no special advice had been received regarding the baroness, but it is assumed that she was well, as the health of the members of the German legation at Peking was reported good August 4.

Baroness Von Ketteler is an American and before her marriage to the German diplomat, was Miss Ledyard of Detroit. Her father is president of the Michigan Central railroad company.

England's Chief Justice Dead.

London, Aug. 10.—Baron Russell of Killowen, lord chief justice of England died Friday after an extended illness. An operation was performed, which the patient passed through in good condition. This operation, however resulted in his death. Lord Russell suffered from gastric catarrh. The fact of his illness was not generally known until it was announced that an operation was imperatively necessary. His youngest son, Hon. Bertrand Joseph Russell, is serving as a lieutenant of the Royal artillery in South Africa. The Hon. Charles Russell, another son of the deceased, is now in Canada. Both have been notified. Lord Salisbury will select the successor to Lord Russell, with the queen's approval. It is believed Lord Alverstone (Sir Richard Webster), the attorney general and now master of the rolls, will be appointed.

Gigantic Plot.

London, Aug. 10.—A special from Pretoria says the Boer plot to make a prisoner of Lord Roberts and shoot all the British officers possible, discovered Thursday, included the recapture of Pretoria and the shooting of Lord Roberts and to induce the burghers to rise en masse. A number of suspected accomplices of the conspirators have been conducted across the border. The British authorities are awakened to the danger of allowing Boer sympathizers to remain in Pretoria and the issue of passes to burghers has been stopped.

Bids For Armor.

Washington, Aug. 10.—At the opening of bids at the navy department for armor plate, the Bethlehem and Carnegie companies submitted identical bids for about 18,200 tons of the 36,000 tons advertised for at \$490 for the thick armor and \$411.20 for thin. The only other bid was from the Midvale Steel company, which proposed to furnish the whole amount of armor without charged royalties, on a sliding scale of \$438 up. This company is unwilling to contract for less than 20,000 tons.

Waterloo, Ia., Aug. 10.—The Republican state committee has announced that Governor Roosevelt will open the campaign in the west September 20 in this city. This will be his only speech in Iowa.

Burned to Death.

Louisville, Aug. 10.—Mrs. William Rosenberger and her two-year-old child were burned to death at their home near Louisville. The house was destroyed. Origin of the fire not known.

PEGULIAR PROJECTILE

Which an Italian Wanted to Present to the President.

Washington, Aug. 10.—An Italian, who gave his name as "Prof." Figuccia of Felucca, Italy, caused some excitement at the White House by exhibiting a brass projectile which he wished to present to the president. He was accompanied by a negro who bore a large stache. When stopped at the front door he presented a slip of paper bearing this inscription: "Prof. Figuccia presents this projectile to the president of the United States."

He took out of the satchel a very heavy projectile and a long wire and explained that the pushing of the wire through a hole which had been bored in the end of the projectile would cause a big explosion. The visitor could speak no English and made known his mission by signs.

After some questioning it was concluded that the Italian was an inventor seeking official recognition of his device and he was directed to the Italian embassy. Later the secret service was notified.

Populist Committee Meeting Called.

Chicago, Aug. 10.—The Populist executive committee has called a meeting of the national committee of that party to be held in this city August 27. At the meeting the question of filling the vacancy on the ticket occasioned by Mr. Towne's declination of nomination for the vice presidency will be disposed of. The claim was made by some of the members of the committee that Mr. Stevenson would be endorsed by the full committee when it meets.

Approaching a Climax.

Pittsburg, Aug. 10.—Wage differences between the Republic Iron and Steel company, the American Tin Plate company and the Amalgamated Association of Iron, Steel and Tin Workers are approaching a climax. Unless a settlement is reached soon, an extensive strike is probable. Another effort to effect a final adjustment of the scale will be made next week, when a call will be issued for a general convention in Detroit.

Log Stealers.

Lacrosse, Wis., Aug. 10.—It has been discovered that a party of 22 men from Lacrosse who make log stealing a profession had attacked the raft of J. W. Vansant, which was tied at Dresbach, Minn., and appropriated several hundred logs from it which are valued at \$1,000 or more. The men went in 16 skiffs and overpowered the watchman. After taking the logs they came to Lacrosse with them and sold them to local lumber men.

Will Start Sept. 1.

Pittsburg, Aug. 10.—Officials of the American Window Glass company announce that all the factories controlled by that company will be started September 1, except the Ihmsen plant here which will be closed indefinitely. No date has yet been fixed for a wage conference with employees and independent window glass manufacturers.

Escaped From Jail.

Evansville, Ind., Aug. 10.—Two prisoners broke out of the county jail here. They are William Betagg and Andrew Jackson, charged with house-breaking. Sheriff Martin Koepke shot his deputy, Noah Fuquay, in the left hand, thinking he was one of the escaped prisoners. Jackson was recaptured.

Union Company Incorporated.

Plague Patient Died.

Hamburg, Aug. 10.—The plague patient who was discovered August 6 on board a vessel in the harbor is dead.

MRS. DAVIS TESTIFIED.

Judge Cantrill Held That She Was a Competent Witness.

WIFE OF AN ALLEGED ACCESSORY.

Testimony For the Defense All In. Rebuttal Will Be Brief—Sensational Testimony of Ex-Treasurer Walter Day.

Georgetown, Ky., Aug. 10.—Mrs. John Davis the wife of one of the defendants charged with being an accessory to the Goebel assassination, testified for the defense. The commonwealth's attorney, Franklin, interposed a formal objection to the eligibility of the witness, but the court ruled that she was a competent witness. Powers boarded at her house. John Powers was also there January 25. She testified that the latter was ill in his room at her house and did not leave his room after 11 o'clock that day. This was in contradiction of the testimony of Robert Noaks who told of an alleged conversation with John Powers at the state house in which he said the latter told him "to stay close to the building as something was going to happen as soon as Goebel and those fellows came down."

Solomon Wilder of Whitley county, testified that Robert Noaks was at Corbin in March and asked him not to tell anybody he was in town as he might be arrested in connection with the assassin conspiracy. Noaks further said he believed Caleb Powers innocent. He said the member of the Noaks military company at Corbin instead of being desperadoes, as Noaks alleged, were mostly good men. On cross-examination it developed that Wilder went to Frankfort in December with Noaks and other armen mountain men at the time of the meeting of the state election commissioner. Noaks gave him and the other men their transportation. Did not go to Frankfort with the two train load of mountaineers in which Noaks and his company went January 25, but he heard them when they returned. They were drunk and firing their guns promiscuously. Golden picked out of the muster roll of Noaks' company names of a number of members of the company. Witness told of various crimes for which they had been tried, murder being the charge in several instances.

Walter Day, former Republican state treasurer testified that Youtsey sent for him the day before the shooting. He went to see Youtsey and the latter told him that for \$300 he would settle the contest. Witness pressed Youtsey to know how he would accomplish it but the latter would only say that for that amount he would settle it. Witness said to Youtsey: "I am not that kind of a man," and refused to confer further with him.

On cross-examination a letter written by Day to Secretary of State Hill was produced. The defense objected to it being introduced and the jury excluded during the argument. In the letter Day states "I will make a good witness for the commonwealth and I want to go to see Prosecuting Attorney Franklin and tell him I want to go on the stand and tell all I know about the case." This letter expresses the opinion that Youtsey is the guilty party. The court admitted the letter as evidence.

At the conclusion of the testimony of ex-Treasurer Walter Day the defense in the Poers case rested. The commonwealth expects to conclude its rebuttal proof Saturday.

DEWEY DIDN'T SAY IT.

Emphatically Denies Statements In an Alleged Interview.

Washington, Aug. 10.—Admiral Dewey, speaking of a published story purporting to be an interview with him in relation to Philippine and Chinese affairs said he had made use of no words saying or intimating that "whatever show of resistance to our authority there is at the present time in the Philippines will be kept up until after our election in November. The insurrection is kept alive by the leaders who hold out to the soldiers the hope of Bryan's election." He denies that he said or even intimated an opinion that a state of war exists between this country and China. "These statements attributed to me are absolutely incorrect," said the admiral.

St. Petersburg, Aug. 10.—The Russian admiralty received a dispatch from Admiral Alexeff dated New Chwang, Sunday, August 5, reporting the capture of the Chinese town of New Chwang on the Gulf of Liao Tung August 4. Two warships took part in the bombardment. The inhabitants were disarmed.

CARDINAL GIBBONS ON EXPANSION.

War having for its object the acquisition of territory by this Government is not to be thought of. We want no empire in Asia. We must go on with the work we have begun in the Philippines. We stand committed to the establishment of a stable and popular government in the islands. Then our mission in that archipelago will be finished.—Cardinal Gibbons in an interview.

AN ENGLISH VIEW OF BRYAN.

Constantly before the American public for years, scanned with close scrutiny, he has given the impression of sincerity and humanity. The American people, cursed with the sinister spectacle of whole States under the rule of corrupt and cynical "bosses," of Platt, Quay, Adickes, of men rich with the spoils of "protected" syndicates and trusts, have seen in Mr. Bryan a clean-handed man entirely removed from all this dirty money-making and wire-pulling. His life is simple, his tastes are ideal, his character is above reproach, his eloquence is powerful, his industry is untiring.—London (Eng.) Speaker.

TEDDY IS SHOCKED.

Roosevelt has discovered, apparently somewhat to his surprise, that there are American citizens who do not share his admiration of his own achievement, which he has so proudly recorded, of shooting a Spaniard in the back at the battle of San Juan. Unfortunately for Teddy's fame as a soldier, the American people hold him to be the bravest who is the least boastful. They like the Wellington or Grant or Sherman type of soldier best, which makes war only to secure peace and forgets the strife as soon as possible, instead of bragging about it in times of peace and telling of shooting men in the back. And this is only one of the many unpleasant shocks in store for Colonel Roosevelt during this campaign.

McKINLEY PROSPERITY.

The failures for May, as compiled from Dun's Review, number 947, as compared with 581 last year and 917 in the "calamitous" year of 1896. The number for May, 1900, is the largest ever known in that month since the records have been kept. The records for the two succeeding months have been equally significant, as indicating the full meaning of the McKinley prosperity. President Gary of the Federal Steel Trust, who certainly has no motive for misrepresenting the facts on that side, said in a recent statement of the iron and steel industry: "The demand is not equal to the production, and the latter should be curtailed until conditions change."

Production is being curtailed at a rate extremely disastrous to the interests of workingmen. And this in spite of the pressure which, it is everywhere agreed, is being brought to bear upon the trust managers by their friends, Hanna and McKinley, to keep their works open if possible until after the election. The trust men are good Hanna Republicans and would be glad to comply with this campaign request, but there is a limit even to the powers of a trust which has fattened upon the abnormal profits of a short season of artificial prosperity.

ANOTHER GOOD CONTRACT.

Work of One Hundred and Fifty Convicts Leased to a Tennessee Firm.

The State Prison Commissioners have closed a contract with William Bransford & Co., of Nashville, Tenn., for the employment of 150 convicts at the Eddyville branch penitentiary at 40 cents per day. The men will be employed in the manufacture of harness and other leather goods. This company has a small plant at the branch prison now employing fifty men.

Three hundred and eighty of the 500 men confined at Eddyville are now under contract. The others are employed on the prison farm and other State work.

SCHOOL MONEY FOUND.

No Record Made of It by State Republican Auditors and Treasurers.

FRANKFORT, KY., Aug. 8.—An evidence of the carelessness with which the money of the State was handled by certain officials of the Republican administrations which have just closed was found to-day by State Treasurer Hagar, who located \$12,768 of it in the National Branch Bank of Frankfort, of which there was no record either in his office or that of Auditor Coulter. The money has been accumulating there since January, 1898, and belongs to the school fund of the State. It represents the dividends on stock of the Bank of Kentucky, owned by the State, and a record of it should have been kept by the Auditor and Treasurer.

No mention of the money found to-day was made in the settlement which the retiring Auditor Sweeney and Treasurer Day made with the present officials when they turned their offices over to them, although all the money of the State on deposit in bank should have been reported and accounted for at that time. Treasurer Hagar found that the dividends were not accounted for a day or two since, and upon inquiry at the bank found that the sum mentioned above was on deposit there to the credit of the State.

ATTORNEY GENERAL BRECKINRIDGE has rendered an opinion to Secretary of State Hill, holding that Notary Public commissions issued by former Governor Taylor after January 31 are null and void, and that the Secretary of State has no authority to draw from the treasury money collected and paid into the State Treasury in payment for such commissions, or to issue new commissions in their stead. He holds that the Taylor government was not then legal. Papers attested by such Notaries are null and void without authority of a Notary. About \$400 has been paid into the Treasury in payment for such commissions, and those securing them are out the money.

Cold Steel or Death.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure stomach and liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure stomach, liver and kidney troubles and never disappoints. Price 50c., at J. Jas. Wood & Son's drug store.

We predicted it would be, and it is. People will go where they get their money's worth and good treatment. The new fair company does all of this and more too.

We, being both directly and indirectly interested in the enterprise, are holding up our end of the string down town. We have thrown our doors wide open for all visitors and feel gratified that so many call on us—some on business and others in a social manner. As at the fair, they get their money's worth with us.

FROSTY NIGHT

Will Follow Hard Upon Heated Terms This Month According to Hicks—Thunder Gusts Coming.

Hicks in his forecast of the weather for August, sums up the situation as follows:

A "heated term" will rise to maximum warrants from 2nd to 7th. From 9th to 13th is a reactionary storm period, and the chances will be good for heavy thunder gusts and some local rain storms, amounting in some places to waterspouts. Interior storms at this time will break up in unseasonable, phenomenally cool weather. Much tendency to cloudiness, with quick changes of temperature for the next week or ten days.

Storms at this time, and during the remainder of the month, will partake of the autumnal equinoctial perturbation; the local manifestations will be only parts of general and far-reaching disturbances.

Frosts in high northern latitude are among the probabilities, if general and heavy storms touch the south coasts during the last half of August.

The Wiedemanns.

The opera house was well filled last night to see the Wiedemann Company in the new version of the familiar play, "Ten Nights in a Barroom." Twenty dollars in gold will be given away to the persons holding the lucky numbers.

BIG CROWD FRIDAY.

Attendance at the Mason County Fair Very Gratifying.

List of the Successful Exhibitors in the Various Departments.

The attendance at the fair Friday was the largest of the week to-date. The crowd was placed at 4,000, which was no doubt a low estimate. To-day, however, promises to be the banner day of the week.

The fair company has come up strictly to its promises, and in fact given even more than was advertised.

People who last week predicted the fair would prove a failure and sneeringly referred to it as "a Sunday school meeting" will now have to take a back seat. It has been demonstrated to all that a successful fair can be given without a lot of disreputable, disgusting and demoralizing side attractions, and a lot of gambling establishments.

The directors in charge of arena for the day were F. T. Goodwin, Tobe McKinney, Eugene Davis, Pierce Calvert and John Clark. Premiums were awarded as follows:

Don't Be Blind To Facts You Should Know

The Testing of the Eyes by a competent Optician is not a matter of guess work, nor is it a matter of trying on glasses promiscuously, but it is a science governed by principles which none but a person who

has studied the science of Optics can understand. We have, with years of experience and close application to properly fitting of glasses to the sight, acquired the knowledge of knowing how, a fact which certainly gives us a great advantage.

Come and let us examine your eyes and we will advise you regarding the true condition of them.

FIIFTY POLITICAL POINTS.

(By Robert Taylor.)

Why wasn't Taylor honored by his party in the way that Beckham was by the Democrats? The answer is plain. Beckham had done nothing of which his party were ashamed.

Just as the old world seems bent on doing away with crowned heads and royalty, the new world, whose exponent is McKinley, appears ready to embrace imperialism, with all that it stands for.

The Republicans owed it to themselves, to the party and to Taylor himself to nominate him; and when they failed to do it they did more against him than any Democrat has ever done.
